Jenkins.

Android applications.

Interests

Playing Netball.

reading novels.

Machine learning.

practicing programming
techniques.

Profile

I am an enthusiast programmer who always wants to learn the new technologies of the computing world. It's important to me to keep myself learned so that i can solve the problem i face while developing a solution. Along with this i like to play sports and read novels

Education

Master of Computer Applications, RV College of engineering
Bengalore[2019-2021](lateral entry)

Bachelor of Science(physics, Mathematics,
Computer science), University College of science Tumkur,
Tumkur University[2016-2019].

Achievements

I have Knowledge of Android programming since my BSc course whice enabled me to develope an android application for my college that has online notice board and web hosting service for students. This was implemented by using Google's Firebase service. Learnt Python programming language by myself from online source which is my main strengths. simillarlly learnt django, docker and other technologies. I represnted my university in all-india level men's netball tournament for 2 years in BSc. It was my pride to participate in the cloud computing(AWS) contest conducted by IIT-bombay as part of their tech fest. Apart from this i have published one research paper in Mysore university in the International conference related to material science in the year 2019. i participated in various workshops and seminars the gave me the knowledge to understand the technologies i worked with
